## ABOUT ME

I'm a software developer with a strong passion for innovation and a proven track record of delivering successful projects. I have worked on several projects such as ChatGPT clone, movie app, and multivendor ecommerce store, where I utilized my expertise in software development to create user-friendly interfaces and APIs that enhance user experience.

With extensive experience in designing and implementing software solutions, I have developed a keen eye for identifying and solving complex problems. I have also worked on various projects that require collaboration with cross-functional teams, and I am a strong believer in communication and teamwork as key drivers for project success. My technical skills combined with my ability to work well in a team make me an asset to any project.

## WORK EXPERIENCE

### Ghana Investment Fund(GIFEC)

Entry level | Senior Developer  
Tamale, Ghana  
2021-11-01 | 2022-12-01

I had to teamup with other developers to improve upon the website and software the institution run. It was outdated and lagging. Was also incharge of the team that had to build an online attendant record system for all employees. Together with my team, we put up a dashboard for the website and ensured that more functionalities were included and also loading time was important

## EDUCATION
